## HISPEED II PACK

### MODEL DESCRIPTIONS

EBERLESTOCK HISPEED II PACK X41.

The X41 HiSpeed II is the newest generation of our HiSpeed pack. Designed to be highly functional, minimalist, lightweight tactical packs, the X41 has a unique contour shape that tapers at both the top and the bottom, giving the pack an excellent close-to-the-body ride. The packs are fully compressible with pairs of side-mounted compression straps that draw the load upward to optimally position the packs contents over the wearers center-of-gravity. New to the X41, the HiSpeed II has two generously sized form-following pockets on the exterior of the upper and lower front flaps. MOLLE-10 lightweight webbing is used, to which you can attach conventional 25mm MOLLE accessories.

The interior features include a hydration sleeve (water bladders sold separately), two document / laptop sleeves, a mesh zippered pocket, MOLLE compatible webbing, and a fold-away shelf that allows you to either segregate or combine the top and bottom interior load space. Built in 420 denier ripstop nylon. Comes with our polycarbonate Gossamer frame.

" Total Volume: 1,800 c.i.

" Weight: 5 lbs 8 oz

" Dimensions main bag: 22"h x 11"w x 7.5"d
